

WHAT'S YOUR TREE

purpose • passion • power

“What is it that calls you to stretch beyond what is comfortable into places that are uncomfortable, and to realize that you are more powerful and more magical than your mind could have believed?” - Julia Butterfly Hill

You are invited to a **WHAT'S YOUR TREE** **Action Circle**

What is What's Your Tree?

What's Your Tree (www.whatsyourtree.org) is building a global movement of engaged citizens dedicated to ecological sustainability, social justice and spiritual/personal fulfillment. It aims to activate the power of purpose in our lives, calling each of us to go beyond what we know ourselves to be. Vancouver is the first place in Canada to have WYT circles thanks to a partnership with Be The Change Earth Alliance (www.bethechangeearthalliance.org).

What is a What's Your Tree circle?

It's an opportunity to explore your purpose and to be supported to use that purpose as a driving force in your life. It is also a powerful tool for supporting others to do the same! Ultimately, we are building communities of people who are lit up by purpose, living their lives powerfully and making choices that call them courageously forward into creating the kind of world they want to live in. Whatever each person's individual pathway is, we want to see them connected, cared for, and in community – because at the end of the day, being in community is the best (and funnest) way to change the world!

When is the next circle, how many people are in it and what's the schedule?

There will be an information meeting about the program on Wed. February 15 at 7:00. The next circle will start on Sunday March 4, (a full day). The circle will reconvene one evening/week for the following 4 weeks.

What will be my role in the group and how much does it cost?

Your participation in the circle is a commitment to building trust, depth and continuity from the first to the last session. There is some reading between sessions, and taking one specific action each week. Your financial contribution is for the cost of materials (~\$45). Ideally you are open to “giving forward” by leading one or more WYT circles in the future.
